Melyna Profile

Melyna Seeds Private Limited was founded by two brothers who are highly enthusiastic, quality conscious, and well-qualified individuals. Their intention is to **Research, Produce, and market High Quality hybrid seeds**, that cater to domestic and international farming communities. The company operates with strong policies and well-defined processes across all verticals, including **Research, Production, sale and Marketing**. Melyna is committed to delivering only the best-quality seeds to farmers each LOT undergoes **Grow Out Test (GOT)** at multiple locations. This process ensures every seed LOT is tested and verified through a detailed covering the entire end-to-end execution. Melyna has set a clear goal to achieve "**Zero Tolerance to Quality Compromise**". The company welcomes and extends Collaboration with all Distributors, Channel Partners, and stakeholders, following a "**Go Along With Everyone**" policy.

Our Mission

To provide farmers with the **best services and innovative, high-quality hybrid seeds, while maintaining ethics, integrity, and commitment** throughout all operations. Melyna strives to build and sustain strong relationships with **all stakeholders through a win-win strategy**.

Our Vision

To deliver **Higher-quality, and higher-yielding seeds**, making Melyna Seeds the preferred choice for farmers.

Our Promise to Farmers

To provide **authentic, high-quality high-yielding seeds** that contribute to the **well-being and prosperity** of farmers

Top Definition of "Melyna" (as per Urban Dictionary)

A loyal firm who stands by you through thick and thin. Honest, trustworthy, and dependable. A great firm who will always make you happy.

R & D Recognition

Melyna is proud of its **Research and Development Centre** was recognized in **2018** by **Indian Institute of Horticulture Research, Bengaluru**.

Future Goals

Melyna Seeds is committed to conducting extensive research across various crops to enhance their traits, making them more beneficial for farmers. By continuously improving crop quality, resilience, and productivity, the company aims to provide seeds that lead to better harvests and increased profitability.

Melyna Seeds offers hybrid seeds with high genetic purity and superior germination rates. This strong focus on quality ensures that farmers receive seeds with optimal traits, resulting in healthier crops and higher yields, thereby supporting more productive and profitable farming.

The company also aims to expand its business across India, becoming the preferred choice of farmers within the next five years. Leveraging its proven results and growing reputation, Melyna is dedicated to establishing a strong PAN-India presence and building long-term relationships with Distributors, Farmers, and all other stakeholders.

About Management

Mr. K. Venkateswara Rao

Chairman

Mr. K. Venkateswara Rao, commonly known as K. V. Rao, is a pioneer in Hybrid Vegetable Seed Production with 34 years of experience in research and breeding, particularly in Chilli and Tomato seeds. He has produced more than 200 tons of hybrid Chilli seeds and 30 tons of hybrid Tomato seeds. As one of the leaders in supplying hybrid Chilli seeds in bulk to Andhra Pradesh and Telangana, contributing nearly 20 - 25 % of the gross hybrid Chilli seed market. His customers extend well beyond these states.

Mr. K. V. Rao understands the importance of constantly improving seed quality and supporting his customers and farmers. From day one, he has been committed to performing Grow-Out Tests (GOT) to ensure this quality. His inherent traits of hard work, dedication, honesty, candour, and adherence to values and principles have led to a 100% seed success rate, consistently exceeding customer expectations.

Mr. K. V. Rao began his career with **Unicorn Agrotech Limited** (later acquired by Advanta), where he worked for 12 years as a Production Manager. His postings across Andhra Pradesh, Telangana, Tamil Nadu, and Karnataka helped him gain extensive insights into various aspects of hybrid seed production. His contributions to Advanta's expert-quality hybrid vegetable seeds were highly appreciated.

This extensive experience paved the way for him to **start his own seed production venture in 2003**. The seed production plots and R&D units are located in Karnataka, Maharashtra, and Chhattisgarh.

Mr. Rao holds a Bachelor's Degree in Science with a specialization in Horticulture from Sri Venkateswara University, Andhra Pradesh. During his college years, he was an enthusiastic leader of the NCC team for three years, participating in and leading several national level NCC camps.

Mr. K. Ramesh

Managing Director

Mr. K. Ramesh, founder of Melyna Seeds, has been managing Sales and Marketing teams across India since 2017, contributing to all verticals and decision-making within the company in a short span of time. He also serves as a strategist and is recognized as one of the successful leaders in the seed industry.

In the past, Mr. Ramesh worked as a Software Engineering Manager with a Master's degree in Computer Applications, he has always had a strong passion for agriculture. The founding of Melyna Seeds, along with his brother Mr. K.V. Rao (Chairman), gave him the perfect opportunity to extend his support to farmers and strengthen the agricultural community.

He has worked for several world-class institutes and multinational corporations in the R&D division. With 21 years of professional experience in India and abroad, Mr. Ramesh is an ideal entrepreneur. He has been worked with several prestigious organizations, such as the Indian Institute of Science (Tata Institute), Novell Software India Pvt. Ltd., VMWare Software India Pvt. Ltd., and Cisco Systems India Pvt. Ltd., Bengaluru.

Mr. Ramesh's distinctive career has provided him with hands-on experience in understanding diverse global markets within the industry. He excels in managing large teams, creating processes, and collaborating closely with employees. Having mastered the rare skill of building and running organizations towards success, he continues to contribute selflessly through his involvement in various social welfare organizations. He is an unspoken icon of discipline, honesty, simplicity, and hard work.

With his quick learning ability and passion for agriculture, Mr. Ramesh swiftly grasped seed domain knowledge and marketing techniques, demonstrating exceptional aptitude for seed business sensitivity. Through intensive research and continuous innovation, he has reached the highest level of expertise, creating tools to benefit farmers. Additionally, he is working to integrate new technologies to provide better services to farmers and agricultural stakeholders.
